

# The Ivy House

A HOME FOR MUSIC & MOVIES

## Let us entertain you?

Imagine every corner of your home filled with the highest quality sound. All this from a reliable system designed specifically to suit your unique requirements and installed discreetly by The Ivy House to the very highest standards.

The modern home has many sources of entertainment and information. Linn KNEKT lets you use and integrate them seamlessly into one simple-to-control system.

Every member of your family can independently choose and enjoy music and movies from CD, radio, home-theatre, satellite TV – in fact up to 16 different sources.

All of these sources can be controlled from anywhere in your home via wall-mounted keypads, a hand held remote control or a touchscreen display.

A Linn KNEKT multi-room system from The Ivy House will transform the way you live.
